Baxter

*Dominican Republic is a major centre for manufacturing, development and distribution of medical devices and disposables.*

## Why Dominican Republic?

- Excellent track record with FDA, and other global health agencies of the European Union and Japanese Government.
- 100% Tax free and special customs provision.
- Supporting industries & service linkages at competitive costs
- Over 11,000 young skilled workers.
- Preferred market access to United States, Europe, Central America and the Caribbean.
- Modern infrastructure, a government priority.
- 12 seaports (CSI Certified) and 9 International Airports.
- More than 60 daily flights to United States and Europe.
